

Advisory on travel with OCI Cards

All non-Indian citizens holding foreign passports, with OCI cards, are hereby advised to carry their current passport, previous passport and the current OCI card, all together, while travelling to India on a direct flight, as well as while transiting through a third country.

If the foreign passport holder has renewed his passport and the old passport number appears on the OCI card, they are at the risk of being off loaded at any transit point. Therefore, in order to ensure easy transit, it is essential to carry all the three documents together.
